

NTT Group's Roots and Purpose

NTT Group has continued to develop a range of solutions as a partner that enables society and industry to move ahead.

It was some 70 years ago that the telephone and telegraph services provided by the Ministry of Communications and Ministry of Telecommunications were handed over to Nippon Telegraph and Telephone Public Corporation. With economic growth booming following the country's post-war recovery, the company began exploring a range of avenues to meet growing public demand for telephone services that connect in an instant.

The company was privatized as Nippon Telegraph and Telephone Corporation (NTT) in 1985. We have expanded our business into regional communications (telephone and FTTH, etc.), integrated ICT (mobile and internet), global solutions, real estate, energy, and others based on our corporate activities to respond to customers' voices and industrial and social challenges.
