**NOTICE REGARDING NTT DATA INTRAMART CORPORATION'S ANNOUNCEMENT OF THE
DIFFERENCES BETWEEN NON-CONSOLIDATED EARNINGS FOR THE FISCAL YEARS
ENDED MARCH 31, 2019 AND MARCH 31, 2018**

NTT DATA INTRAMART CORPORATION has announced today the differences between its non-consolidated earnings for the fiscal years ended March 31, 2019 and March 31, 2018, as further described below.

1. Differences in Non-Consolidated Earnings

(Millions of yen)

	Operating Revenues	Operating Income	Recurring Profit	Net Income	Earnings per Share
Previous period results (A) (fiscal year ended March 31, 2018)	4,782	659	668	488	98.49 yen
Current period results (B) (fiscal year ended March 31, 2019)	6,366	666	690	485	97.90 yen
Change (B-A)	1,584	6	21	(2)	—
Percentage Change (%)	33.1	1.1	3.2	(0.6)	—

2. Reasons for the Differences

During the fiscal year ended March 31, 2019, as a result of orders for large-scale SI projects increasing substantially, operating revenues increased over the previous fiscal year. Income remained similar to the previous year, due to an increase in the cost of sales resulting from increased revenues in the services business and an increase in internal system expenses for internal business operation improvements.
