

Crowd information, Facility information, etc.

Analysis & Use Of Various Data

Personal Agent will support
an efficient and comfortable
visitor experience
that is personalized according to
the preferences and
situation of each individual and
the conditions of the Expo site

*Plan to utilize the various data obtained and provided at the Expo venue, etc.

Efficient Touring

Assist Visitor Activities

State-of-the-Art Experience

Environmental Consideration

Avoid Crowds

Contribute to eco-friendliness

Personalization

Whether you are a first-time visitor or a returnee, your Personal Agent will propose the facilities in the venue and the best way to spend your day and time according to your personal interests and concerns. We will support a satisfying Expo experience for each visitor.

Real × Digital 15th

Try out holding up your smartphone at the Expo venue. Personal Agent will provide various experiences and information, such as scenery of the past and future, that cannot be obtained from the physical venue itself. We support exciting experiences through the Expo.

Personal Agent

Function Examples

Proactive

There is no longer any need to worry about rain or unexpected crowds. Personal Agent will predict weather and crowd conditions, suggest proactive steps to take, and support a comfortable Expo experience that prevents trouble from occurring.
