

Self-Assessment Checklist for CO<sub>2</sub>Emission Reduction Initiatives by  
Telecommunications Carriers and Other Entities

Company Name: NTT, Inc.

<Mandatory Items>

		Evaluation Item	Implementation Status and Details of Efforts
Creation of voluntary environmental action plans, etc.	1	Has an Environmental Voluntary Action Plan, detailing various initiatives aimed at reducing CO <sub>2</sub> emissions, been formulated and implemented?	In September 2021, we formulated a new environmental energy vision, "NTT Green Innovation toward 2040", which aims to simultaneously achieve zero environmental impact and economic growth through "reducing environmental impact from business activities" and "creating breakthrough innovations". <a href="#">Environmental Energy Vision</a>
	2	Does the environmental voluntary action plan include specific initiatives incorporating various numerical targets aimed at reducing CO <sub>2</sub> emissions?	The NTT Group has set targets of an 80% reduction in greenhouse gas emissions by fiscal year 2030 and carbon neutrality by fiscal year 2040. To achieve carbon neutrality, we will undertake the following initiatives: (1) Expand the use of renewable energy to reduce greenhouse gases by 45% (2) Reduce electricity consumption through the introduction of IOWN, cutting greenhouse gases by 45% <a href="#">Environmental Energy Vision</a>
	3	Are you publishing your voluntary environmental action plan both internally and	We disclose the Group's environmental initiatives both

		externally, while also conducting awareness-raising activities for employees to enhance environmental consciousness?	internally and externally through publications such as the Sustainability Report and our website, as well as through environmental public relations activities. We also continuously implement awareness-raising activities for employees, including holding study sessions for environmental officers within the Group. <a href="#">NTT Group Environmental Activities   NTT</a>
	4	Is the implementation status and achievement status of the various initiatives outlined in the Environmental Voluntary Action Plan publicly disclosed?	We disclose the status of target achievement and initiative implementation to both internal and external stakeholders through our Sustainability Report and website. <a href="#">NTT Group Environmental Activities   NTT</a>
Procurement Initiatives	5	Are procurement standards that take energy conservation into account established for ICT equipment and data centres, and is procurement conducted in accordance with these standards?	The NTT Group Green Procurement Standards set out the basic approach to the development and procurement of ICT equipment such as routers and servers used within the company, as well as target values for each type of equipment. <a href="#">NTT Group Green Procurement Standards</a>
	6	Are energy-saving considerations, such as green purchasing, taken into account when procuring office equipment, supplies and logistics for use in offices?	We have formulated and published the NTT Group Green Procurement Standards and are implementing green procurement. <a href="#">NTT Group Green Procurement Standards</a>

Promotion System	7	Has a department or person been designated to be responsible for CO <sub>2</sub> emission reduction initiatives?	We have established a Sustainability Promotion Office to promote the NTT Group's CO <sub>2</sub> emission reduction initiatives.
	8	Is there a system in place to appropriately monitor the implementation and achievement status of targets set out in the Environmental Voluntary Action Plan, and to conduct internal audits, etc.?	<p>A Sustainability Committee has been established directly under the Board of Directors, with the Green Innovation Committee operating as an internal subcommittee of the Sustainability Committee. The Green Innovation Committee manages and promotes the Group-wide environmental activity policy and its progress. Policies concerning sustainability are decided by the Board of Directors via the Sustainability Committee, while other items are decided by the Executive Officers' Meeting. Furthermore, the introduction of an Environmental Management System (EMS) is being advanced, enabling the mutual implementation of internal audits.</p> <p><a href="#">Environmental Management   Environment   Sustainability   NTT</a></p>

<Optional Items>

		Evaluation Item	Implementation Status/Initiative Details
Other Environmental Initiatives	9	Are environmentally conscious initiatives undertaken beyond energy-saving measures?	The NTT Group Sustainability Charter identifies coexistence with nature (the Earth) as one of its core themes. Activities are conducted based on three challenges: "Towards a future

			<p>where society is decarbonised”, “Towards a future where resources are recycled”, and “Towards a future where people and nature coexist”.</p> <p><a href="#">NTT Group Sustainability Charter</a>  <a href="#">  Sustainability Management  </a>  <a href="#">Sustainability   NTT</a>  <a href="#">Environmental Management  </a>  <a href="#">Environment   Sustainability   NTT</a></p>
	10	<p>Are environmental conservation activities conducted in collaboration with local communities?</p>	<p>We are committed to promoting ecosystem conservation activities both within and outside the company, including joint clean-up activities with local communities, terraced rice field conservation initiatives, and supporting information dissemination and exchanges to raise awareness of biodiversity’s importance across society.</p> <p><a href="#">NTT Group Environmental Activities   NTT</a></p>
